Reasons For Allowance

The following is an examiner's statement of reasons for allowance: In view of the applicants' amendment/response filed September 9, 2005 and March 01, 2006 in which it has been established that the prior art does not teach as instantly claimed methods of producing a polyamide by batch melt polymerization and by solid phase polymerization of batch melt-polymerized polyamide by developing and utilizing an estimating equation which provides an estimation of at least one property selected from the group consisting of mole balance, molecular weight and a relative viscosity using this estimating equation; the melt polymerization is continued in , e.g., next and subsequent batches, under conditions determined by results of the estimation. Thus, claims 1-28 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tanaka, Kurose and Maruo are cited to show the state of the art of preparing polyamides but not using an estimation equation as instantly claimed.
